# Integrated Personnel Pay System-Army (IPPS-A) Leadership Team

## Project Management Office (PMO)

COL Rob Williams

Project Manager  
ASA(ALT), PEO EIS

LTC Corris Bullock "Bull"

Product Manager  
ASA(ALT), PEO EIS

## Functional Management Division (FMD)

COL Gregory Johnson

Division Chief  
G-1(TBAI)

Responsible for the development, integration, testing, fielding and sustainment of IPPS-A INC II, which will provide the majority of IPPS-A functionality.

Responsible for functional input, including requirements definition, business process mapping, deployment, training strategy and change management.

## What is IPPS-A?

IPPS-A is the Army's future online Human Resources (HR) solution that transforms our industrial age personnel systems to a 21st century talent management system:

- ❑ Consolidates Active, Guard and Reserve Components into one HR system (~1.1M Soldiers)
- ❑ Creates an integrated personnel & pay record for Soldiers for their entire careers (hire-to-retire)
- ❑ Provides three essential capabilities: Total Force Visibility, Talent Management and Auditability
- ❑ Gives Commanders visibility of Soldiers' talents, allowing them to better manage their knowledge, skills, and behaviors to optimize their contribution to readiness
- ❑ Improves access, timeliness and accuracy of personnel and pay transactions
- ❑ Establishes self-service capabilities that are available 24/7 to Soldiers and their families

## How Industry Can Support

- Offer working knowledge of Business Capability Acquisition Cycle for DoD 5000.75\_Business Systems Requirements & Acquisition.
- Bring innovation.
- Be honest and a team player.
- Escalate issues “early and often”.
- Create/use informative metrics for products.

# IPPS-A INC II Follow-On Contract System Integrator (SI) Services
