

PEO Enterprise Information Systems

Connecting the Army. Working for Soldiers.

WHAT IS PEO EIS?

INTEGRATED, INNOVATIVE, COST-EFFECTIVE SYSTEMS AND SERVICES

PEO EIS is a critical provider in the modernization and management of Army network and enterprise business systems. Our diverse portfolio of 36 program offices and 71 acquisition programs supports and fields Army and Department of Defense communications, logistics, medical, finance, personnel, training and procurement systems for every domain, branch, unit and Soldier, managing annual budget of approximately \$4.3 billion.

WHAT DOES PEO EIS DO?

- From recruitment to retirement, home station to foxhole, our systems support Soldiers every day around the world, making sure they're ready to fight and win.
- We run lead on Army's software and support network engineers, program managers, logisticians, IT specialists and cyber security experts.

WHO WE ARE

- Army's trusted network and software acquisition professionals.
- Support for the Total Army, serving as a committed teammate both in the field and at home.

MISSION

Rapidly deliver *integrated, innovative and cost-effective* systems and services for the Total Force, globally connecting the Army and providing a decisive information-advantage to every Soldier.

Over 24.2 million daily business system transactions, supporting over 615,000 users

36 program offices and 71 acquisition programs

Support for one million Active, Guard & Reserve Soldiers & 330,000 Army Civilians

TOP GOALS & PRIORITIES

Why we do what we do, every day

PEO EIS is a global team. Our mission and vision reflect our focus on delivering capability to the entire Army.

We support and field Army & DOD communications, logistics, medical, finance, personnel, training and procurement systems for every domain, branch, unit and Soldier.

Our current priorities align with the highest U.S. Army focal points: Readiness, Modernization, People and Reform.

We have two strategic areas of operations: Business Mission Area (data, finance, human capital, logistics) and Enterprise Information Environment Mission Area (defensive cyber, enterprise services, networks).
