

# Army Training Information System (ATIS)

## The Future of Army Training

### WHAT IS ATIS?

Army Training Information System (ATIS) acquires, deploys and maintains a worldwide distributed learning system that ensures our nation's Soldiers receive critical training.

Unlike traditional methods of training that are costly, time consuming and require time away from family, our program components provide Soldiers and DA Civilians numerous options to access Army training creating a relevant and ready

### WHAT DOES ATIS DO?

ATIS delivers a customer-focused, worldwide, adaptive Army Training Enterprise Capability to the Total Force to enable training readiness anytime, anywhere.

### ATIS PROGRAM COMPONENTS

- ATIS (Development) – ATIS will combine 28 legacy training systems into one, single solution that will provide training development, scheduling, resource learning and content management
- Army Learning Management System (ALMS) – Centralized training management system that hosts courseware and delivers standardized training
- Range Facility Management Support System (RFMSS) – Web Based Range management application
- Digital Training Facility/Mobile Deployed/Deployed Digital Training Campus – Fixed, deployable and mobile classrooms used to conduct distributed learning and training to improve individual and unit readiness
- Army e-Learning – Offers Courses in IT, Business Leadership and Professional Development

### MISSION

To be the premiere, one-stop *training solution* for the Total Force.
