

PEO ENTERPRISE

WELCOME TO THE ARMY DATA PLATFORM VIRTUAL  
INDUSTRY DAY  
WE WILL BEGIN SHORTLY

---

# ARMY DATA

## — PLATFORM —

---

DISTRIBUTION STATEMENT A. Approved for public release. Distribution is unlimited.

# AGENDA

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- 1315 – CDAO & CIO
- 1345 – Program Review & Acquisition Strategy
- 1415 – Break
- 1430 – Contracts & Acquisition Overview
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# Industry Day Objectives

- ❑ **Improve the understanding of the Government's requirements in order to:**
  - Allow potential offerors to better assess the opportunity against their capabilities.
  - Enhance the Government's ability to obtain quality services.
  - Increase efficiency in proposal preparation, evaluation, negotiation, and award.
  
- ❑ **Specifically review and address the following:**
  - Draft Performance Work Statement (PWS) and Sections L & M
  - Overview of systems engineering
  - Industry questions/feedback received

# Ground Rules & Disclaimers

## ❑ ARMY CONTRACTING COMMAND – ROCK ISLAND (ACC-RI)

- Ms. Shanna Henao, Branch Chief | shanna.r.henao.civ@army.mil
- Mr. Benjamin Geringer, Contracting Officer | benjamin.l.geringer.civ@army.mil
- Ms. Babette Murphy, Contracting Specialist | babette.r.murphy.civ@army.mil

- The Government will not publish Industry-Proprietary questions/comments or their responses.
- Nothing presented in this Industry Day commits the U.S. Army to any acquisition approach, agreement or contract.
- Any future published opportunity will take precedence over information presented today or in response to questions.
- The “final” version of these slides will be posted on [www.SAM.gov](http://www.SAM.gov).
- For those on Teams: Individual participant chats go directly to the Moderator for consideration during the Q&A portion, which will be reviewed by ACC-RI.

# Opening Remarks

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- **1305 – Opening Remarks**
- 1315 – CDAO & CIO
- 1345 – Program Review & Acquisition Strategy
- 1415 – Break
- 1430 – Contracts & Acquisition Overview
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# FROM THE PEO

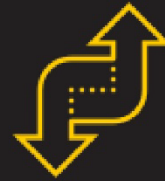

---

**Army Vantage -  
Success**

---

**Developing  
the Strategy**

---

**Digital  
Transformation**

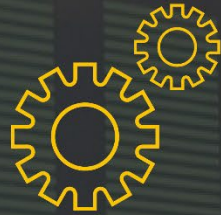

---

**Road Ahead**

# ARMY VANTAGE: AVAILABLE & STILL SUPPORTED

Army Vantage is available to Army users & will be supported while a successor product is developed.

Eventually, Army Vantage will be subsumed by the Army Data Platform, which includes Army Vantage's offerings & adds new capabilities.

Existing user data, data products & analytic products created in Army Vantage will transfer to ADP.

The Army is committed to providing a reliable data platform that leverages innovative technology.

ARMY  
**VANTAGE**  
DATA ANALYTICS PLATFORM

# U.S. Army and DoD Chief Digital and Artificial Intelligence Office

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- **1315 – CDAO & CIO**
- 1345 – Program Review & Acquisition Strategy
- 1415 – Break
- 1430 – Contracts & Acquisition Overview
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# Background: Army Data Platforms

- Army on the 5th year of the Army Data Plan
- Army Data Platforms are a key component
- Army Data Platform Directive identifies 6 platforms for Army use

Platform	Community	Platform Strengths
Army Vantage*	Army Wide, business focus	Easy to use (45k+ users), wide applicability
Gabriel Nimbus	Cyber Defense and cyber security	Large data storage and distributed compute
ADVANA	Financial / Audit	Strong internal controls
Army Resource Cloud	Programming / ORSA	Designed for the Army future year defense plan
Army Intel Data Platform	Intel	Title 50 requirements
Personal Event Data Environment	Soldier Behavior Research	Privacy data controls for research

\* Army Data Platform acquisition PWS draft has been released- it takes a multi-vendor approach

Army has a Multi-Vendor Approach to Maximize Industry Capabilities and Seek Competitive Value

# Army Data Platform

- Areas the Army wishes to keep:
  - Momentum on supporting Army missions
  - Best industry has to offer
- Areas the Army is seeking to improve:
  - Scalability of contracting vehicle
  - Directly manage data platform offerings
  - Simpler Contracting task order vehicle aligned w data governance
  - Range of Vendors providing complex (full CRD capabilities) to simple (minimal CRD capabilities) task order requests at best value
- Task Orders
  - Governance triage to limit task order scope overlap
  - Competitively awarded
  - Scalable
  - Scopes include
    - Existing data areas (HR, finance / log)
    - Emerging data (behavior health, law enforcement)
- Complements low code / no code activities to assist Army modernization

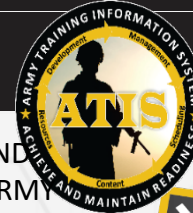

# Program Review & Acquisition Strategy

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- 1315 – CDAO & CIO
- **1345 – Program Review & Acquisition Strategy**
- 1415 – Break
- 1430 – Contracts & Acquisition Overview
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# PROGRAM ROADMAP

## ARDAP STARTS WITH DATA....

DEVELOP, INTEGRATE, TEST, DELIVER, OPERATE AND  
MAINTAIN AN ENTERPRISE CAPABILITY FOR THE ARMY  
TRAINING & EDUCATION COMMUNITIES

**ARMY DATA**  
PLATFORM

THE ARMY'S DATA-DRIVEN  
OPERATIONS AND DECISION-  
MAKING PLATFORM

A CLOUD-BASED, TRANSACTIONAL SUITE OF APPLICATIONS  
SUPPORT COMMANDERS TO PLAN, PROGRAM, AND PRODUCE  
AUTHORITATIVE GLOBAL FORCE MANAGEMENT (GFM) DATA

PROGRAM MANAGEMENT OF LOGISTICS INFORMATION SYSTEMS AND POST-DEPLOYMENT  
CAPABILITY SUPPORT OF AUTOMATED MILITARY/CIVIL TRANSPORTATION  
VISIBILITY AND TACTICAL AMMUNITION SUPPLY & PROPERTY  
MANAGEMENT SOLUTIONS

**ARDAP**  
ARMY DATA AND ANALYTICS PLATFORMS

....ENDS WITH WARFIGHTER MISSION ACCOMPLISHMENT

# ADP Acquisition Timeline to Date

## Iterative Maturing of the Army's Approach

- **2018** – Under Secretary of the Army (USA) signed and Chief of Staff of the Army (CSA) Directed Needs Statement
- **DEC 2018** – Vantage OTA Production Contract Awarded
- **JAN 2023** – RFI #1 Released to Industry .....→
- **JAN 2023** – USA Multi-Vendor Guidance for Follow-On Capability
- **NOV 2023** – RFI #2 Released to Industry .....→
- **DEC 2023** – OTA Production Agreement Extended for 1 Year
- **OCT 2024** – RFI #3 Released to Industry .....→

### Architectural Approach

Single Platform / Single Vendor

Single Platform / Multi-Vendor

Multiple Platforms

# ADP Acquisition Approach

## Acquiring a Multi-Platform Interoperable Ecosystem

- ADP is a new requirement and has no procurement history.
- ADP is an essential follow-on to Army Vantage, and Army Senior Leaders desire full transition from Army Vantage by FY2027.
- The Army will use a Multiple Award Task Order Contract (MATOC) to enable it to maximize innovation, affordability, and interoperability across the ADP lifecycle.
- The Army will select integrated and compatible SaaS and/or PaaS hosted data platforms.
- The Army will acquire products/capabilities that are "commercially available now".
- The platforms shall interoperate with enterprise services such as Identity Credential and Access Management (ICAM), Army Data Catalog, and share data and objects with other data platforms through APIs.

# Break

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- 1315 – CDAO & CIO
- 1345 – Program Review & Acquisition Strategy
- **1415 – Break**
- 1430 – Contracts & Acquisition Overview
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# Contracts and Acquisition Overview

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- 1315 – CDAO & CIO
- 1345 – Program Review & Acquisition Strategy
- 1415 – Break
- **1430 – Contracts & Acquisition Overview**
- 1500 – Systems Engineering
- 1530 – Questions & Answers

# RFI Feedback

## "You Responded, We Listened"

- RFI #2 Received a total of 93 responses
- RFI #3 Received a total of 62 responses
  - Biz Size:
    - 32 Small Biz
    - 30 Large Biz
  - Delivery Model
    - 7 SaaS
    - 10 PaaS
    - 27 MS/SI
    - 17 Hybrid

### Vendor-identified Challenges:

Integration Complexity  
Fair Competition  
Pricing Disparities  
Contract Management  
Vendor Lock-In  
Security and Compliance  
Innovation Stagnation  
Transparency

- ❑ When it comes to providing a data platform there is no (1) one delivery model that fits the Army's requirements, each has their own pro's and con's.
  - SaaS – Predictive budget, quick time to implement
  - PaaS – Pay for only what you use, purpose-built platform for the Army
  - MS/SI - Delivered by experienced IT professionals
  - Hybrid – Combination of SaaS and PaaS dependent on task order
- ❑ Platform Pricing Models
  - Subscription Model – FFP contract that best aligns to SaaS delivery model
  - Consumption/Tiered Model - CPFF, CIFF, and T&M contracts align best with PaaS delivery model
  - Hybrid can take a combination contracts provided above
- ❑ Requested number of awardees
  - We're looking into having several vendors awarded to the MATOC IDIQ contract
  - Promote competition, foster best of breed technologies, and optimizes cost and value to the Army

# MATOC IDIQ Framework

## MATOC IDIQ Objectives

- 1) Qualify and select vendors able to deliver platform and provide platform support services.
- 2) Establish an ecosystem of enterprise data platforms from multiple vendors and service providers that support Army data requirements.
- 3) Maximize competition at the task order level by releasing request for task and delivery orders.
- 4) Provide to the Army an expedited ordering process for new, emergent platforms that integrate seamlessly into the Army's ecosystem of enterprise data platforms.
- 5) Satisfy data product and data consumption requirements for the following types of users:
  - 1) Decision Makers
  - 2) Data Analysts/Product Generators
  - 3) Platform Enablers

## Period of Performance

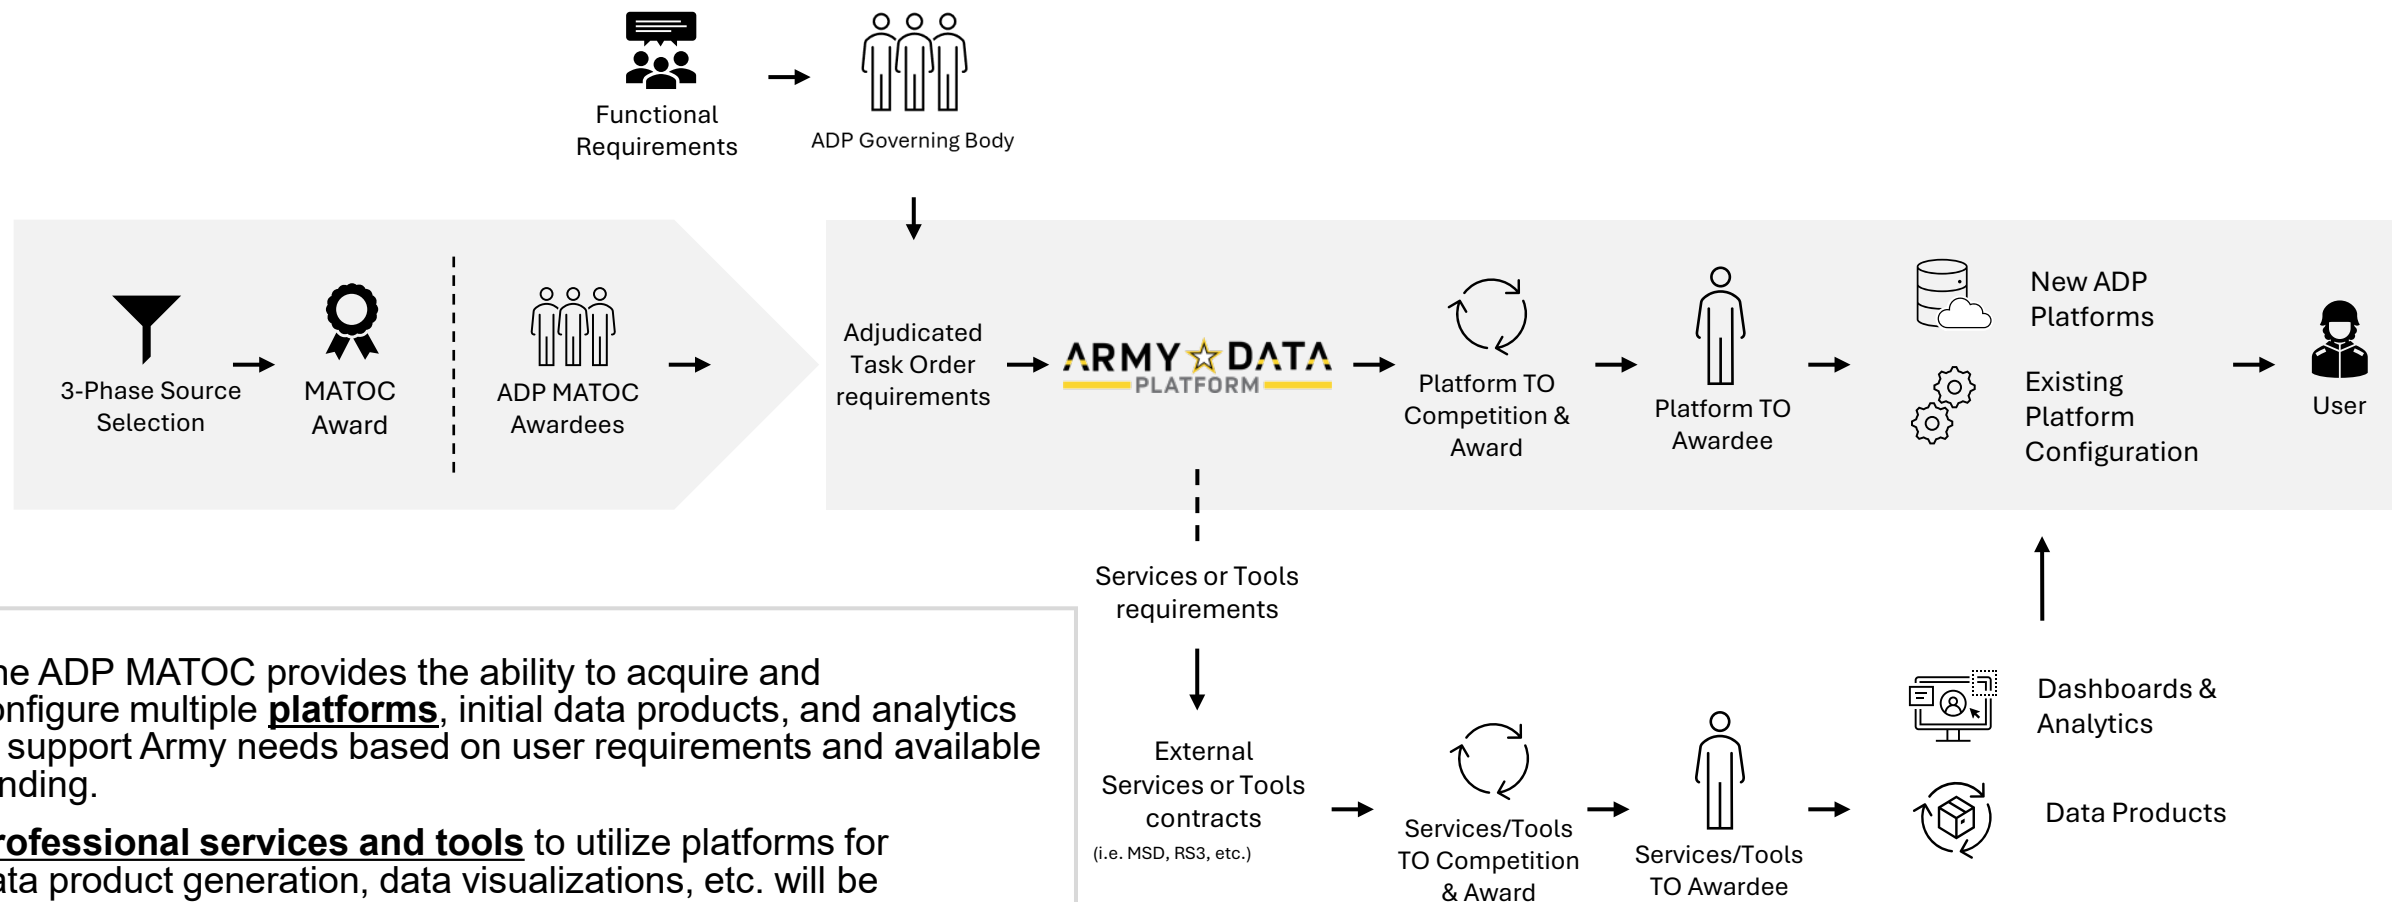

The period of performance for this multiple-award IDIQ is 10 years:

- Consisting of Two or Three-year base period from date of award
- Seven or Eight one-year option periods
- Multiple Vendors capable of providing various platform solutions (SaaS/PaaS/Hybrid)

## Contract Type

The Army will select best contract type for each Task Order – likely FFP

# Proposed ADP MATOC CONOPS

The ADP MATOC provides the ability to acquire and configure multiple **platforms**, initial data products, and analytics to support Army needs based on user requirements and available funding.

**Professional services and tools** to utilize platforms for data product generation, data visualizations, etc. will be acquired under separate contracts (MSD, RS3, MAPS, or others).

# Contract Selection L - Instructions

Event	Description	Comments
<b>Phase One: Technical Corporate Experience</b>		
Phase One Proposal Due - Vol 1	<ul style="list-style-type: none"> <li>This phase will evaluate the offerors response to Volume 1, Technical Corporate Experience.</li> <li>Cover Letter</li> <li>Technical Corporate Experience</li> <li>OCI Declaration / Mitigation Plan</li> </ul>	Cover letter: <ul style="list-style-type: none"> <li><input type="checkbox"/> No page limit cover letter</li> <li><input type="checkbox"/> Offeror's format</li> </ul> Technical Corporate Experience: <ul style="list-style-type: none"> <li><input type="checkbox"/> 9-page limit</li> <li><input type="checkbox"/> Format provided in Section L</li> </ul>
<b>Phase Two: Technical and Management Approach - Down Select</b>		
Phase Two Proposals Due - Vol 2	<ul style="list-style-type: none"> <li>This phase will evaluate the offerors response to Volume 2, Technical Approach and Program Management Approach.</li> </ul>	Technical Approach: <ul style="list-style-type: none"> <li><input type="checkbox"/> 18-page limit, page limits include pictures and diagrams, 12-point font in text and 10-point font in tables and graphics</li> </ul> Management Approach: <ul style="list-style-type: none"> <li><input type="checkbox"/> Same as Technical Approach, however, there is a 7-page limit.</li> </ul>
<b>Phase Three: Pricing and Integration Data Platform Task Order Oral Demonstration – Down Select</b>		
Phase Three Proposals Due – Vol 3 & 4	<ul style="list-style-type: none"> <li>This phase will evaluate the offerors response to Volume 4, Sample Integrated Data Platform Task Order Oral Demonstration, and Volume 3, Pricing</li> <li>Sample Integrated Data Platform Task Order Technical and Pricing</li> <li>Sample Integrated Data Platform Task Order BOE</li> </ul>	Sample TO Oral Demo Tech and Mang Approach: <ul style="list-style-type: none"> <li>15-page limit, page limit include pictures and diagrams 12-point font in text and 10-point font in tables and graphics</li> </ul> Sample TO BOE: <ul style="list-style-type: none"> <li>8-page limit, page limit include pictures and diagrams 12-point font in text and 10-point font in tables and graphics</li> </ul>
<b>MATOC Award</b> <ul style="list-style-type: none"> <li>(1) Multiple vendors awarded as data platform providers on the MATOC</li> <li>(2) Follow on task orders will be tailored to mission requirements and awarded based on capabilities required and affiliated with the appropriate data platform</li> </ul>		

# Contract Section M – Evaluation Factors for Award

Phase	Factor	Factor Title	Assessment
Phase One	Factor 1	Technical Corporate Experience	Satisfactory Confidence or Substantial Confidence
Phase Two	Factor 2	Technical Approach	Acceptable, Good, or Outstanding
	Factor 3	Management Approach	Satisfactory Confidence or Substantial Confidence
Phase Three	Factor 4	Pricing	Fair and Reasonable
	Factor 5	Sample Integrated Data Platform Task Order Oral Demonstration	Acceptable, Good, or Outstanding

## **Relative Order of Importance:**

Factors are listed in descending order of importance:

Factor 5: Sample Integrated Task Order Oral Demonstration Presentation (most important)

Factor 2: Technical Approach

Factor 3: Management Approach

Factor 1: Corporate Technical Experience

Factor 4: Price (least important)

# Capability Implementation & System Engineering Overview

- 1300 – Industry Day Mission, Ground Rules & Disclaimers
- 1305 – Opening Remarks
- 1315 – CDAO & CIO
- 1345 – Program Review & Acquisition Strategy
- 1415 – Break
- 1430 – Contracts & Acquisition Overview
- **1500 – Systems Engineering**
- 1530 – Questions & Answers

PEO ENTERPRISE

# Army Data Platform

## Capability Implementation & Systems Engineering Introduction

---

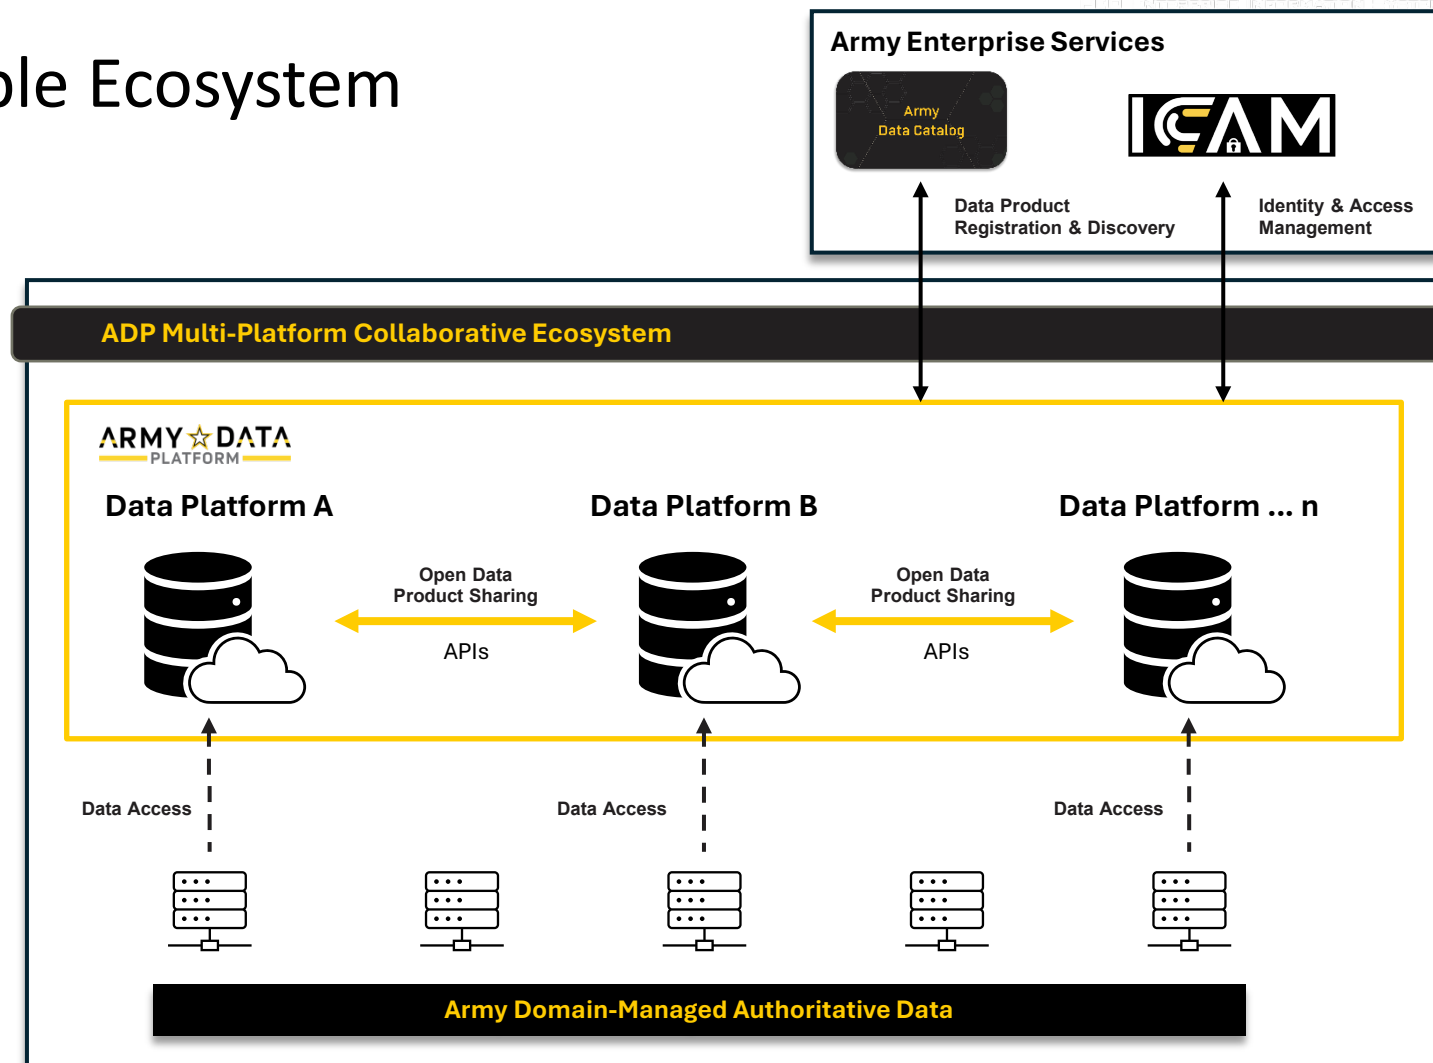

Every Soldier. Every Day.

January 16, 2024

# ADP Multi-Platform Interoperable Ecosystem

**ADP will operate as a multi-platform interoperable ecosystem that will:**

- Align with the principles set forth in the Army Unified Data Reference Architecture (UDRA)
- Adhere to VAULTIS principles
- Access Army domain-managed authoritative data for data exploration, data product generation, and analytics
- Give self-service users the ability to discover, create, publish, and use conforming data products
- Ensure open data product access between ADP platforms and external consumers through open APIs.
- Provide the workspace for Army decision makers at every echelon to build and explore analytics, reports, dashboards, workflows, and other products.
- Interoperate with Army enterprise services for federated requirements such as data product registration and discovery, as well as user identity and access management.

# ADP Platform Requirements

## Minimum Requirements (All platforms)

- |                             |  |
|-----------------------------|--|
| • Usability                 | Intuitive, interactive, large-scale data exploration application                                 |
| • Data Integration          | Automated, data-agnostic, shareable data products, secure data acquisition & integration         |
| • Security & Infrastructure | Secure, transfer data & insights to classified solutions, scalable, encrypted, controlled access |
| • Audit                     | Track, record, and verify data product integrity and changes                                     |
| • Platform Support          | Patch software and security issues, enhance product functionality                                |
| • KSA                       | Exportable data, scalable, Tier 3 support, interoperable with ADC, resource usage monitoring     |

## Extensible Requirements (Task Order Specific)

- |   |  |
|---|--|
| • User Experience                         | Immediate, actionable, self-service, drill-down insights, intuitive search, platform controls & monitoring |
| • Classified Data Integration             | Secure, transfer data & insights, scalable, encrypted, controlled access, (NIPRNet & SIPRNet)              |
| • Protected Unclassified Data Integration | Integrate, secure unclassified data, comply with PII/PHI laws  |
| • Analytics and Visualization             | Real-time integration, visualization, predictive analytics   |
| • Platform Solution Deployment            | Develop data pipelines, analytics, and visualizations using platform capabilities                          |
| • KSA                                     | On-line training, exportable data, data workflow, and display logic to any platform                        |

Objective Requirements	Environment	Delivery Model
<ul style="list-style-type: none"> <li>AI/ML Integration</li> <li>Agility Layer to transactional systems</li> <li>Mission-focused, user prioritization in DIL</li> </ul>	<ul style="list-style-type: none"> <li>SaaS with FEDRAMP and DISA PA.</li> <li>SaaS with sponsorship and ability to obtain DISA PA (considered based on mission need).</li> <li>PaaS and SaaS offerings in cARMY.</li> </ul>	<ul style="list-style-type: none"> <li>Industry-standard agile operations</li> </ul>

# Opportunities for Feedback and Engagement

- Industry Day 1:1's
  - Date: 22nd – 23rd JAN
  - Location: CARR 1800 Diagonal Road, Suite 600 Alexandria, VA 22314
  - Time: 0900 – 1700 (30-minute sessions)
  - Focus: Recommended improvements to sections L&M to ensure fair and reasonable competition
  - Attendees are expected to come with questions...this isn't a meet and greet or marketing opportunity
- Schedule with ADP OPS for 1:1's following Industry Day
  - [Eventbrite - Industry Day 1:1's](#)
