Business Excellence at the Speed of Relevance

DISTRIBUTION STATEMENT A. Approved for public release.
Distribution is unlimited.

May 20, 2025

DEFENSE INTEGRATED BUSINESS SYSTEMS

Defense Integrated Business Systems (DIBS) is accountable for standardizing, streamlining and sharing critical data across the Army, Department of Defense and industry partners. DIBS procures and delivers the best management capabilities to Soldiers and end users.

ACTING PROJECT MANAGER
MR. ROBERT PORTER

OUR APPROACH

MISSION

Continuously integrate, deploy, and improve leading edge technologies, agile business solutions, and innovative capabilities using non-linear development that meets the evolving needs of the Army enterprise.

VISION

Establish DIBS as the prominent Agile acquisition leader for the development and improvement of business systems at the speed of relevance in support of the Army's mission within multi-domain operations.

MOTO

Business Excellence at the Speed of Relevance

ARMY CONTRACT WRITING SYSTEM

PRODUCT MANAGER
LTC CAMILLE N. MORGAN

OVERVIEW

Delivering capabilities and taking care of people

MISSION

Deliver a world class, single, enterprise-wide contract writing and management solution at the speed of relevance. Capable of meeting the current and future non-classified, classified, and disconnected state missions of the Army contracting community.

VISION

Next generation enterprise contract writing and management solution providing Army full scope business mission capability across the lifecycle.

ACWS EXISTING PROGRAM PILLARS

SPS/PADDS SUNSET

- H2L Requirement
- SPS Sunset FY25Q4
- H2H Requirement
- PADDS Sunset FY26Q4
- ART Backlog/Tech Debt
- + 7000 SPS Sunset FY25Q4
- + 1000 PADDS Sunset FY26Q4
- 8000 users post PADDS sunset

STAKEHOLDER MANAGEMENT

- Weekly ACWS Testing Cadre Sessions
- Weekly SPS/PADDS Sunset Meetings
- Bi-Weekly CWS Meetings with DLA, USAF and NAVY
- Quarterly PEO CWS Summits
- Sharing Code with other CWS
- Sharing Lessons Learned and Best Practices

FULLY AUTOMATED CI/CD PIPELINE

- Appian and SQL - Complete
- Java – Complete
- Javascript - Complete
- Docker – Complete
- Kubernetes/DLA Tools – Complete
- Ansible Accounts (Pending)
- Speed, Efficiency & Excellence

RELEASES & CON-IT BUGS

- Releases
- Patching
- Updates
- Bugs/defects inherited from the CON-IT baseline.
- Inherited bugs/defects that originated from the CON-IT baseline occasionally slows down the Program's Schedule.
- Baseline Merge scheduled in FY25Q1.

CAPABILITIES NEEDED

- SPS Sunset Features
- H2L
- LMP Integration (AWCF workflows) HS 1-4.
- VCE-PCF Integration
- Non-far ingestion
- Professional Appearance
- Standalone CARs
- PIID Maintenance
- Release Validations

TEAMWORK & COLLABORATION

- Having a sense of urgency.
- Known roles and responsibilities
- Cross collaboration
- Teamwork/trust
- Timely Responses
- Performance
- Precession and Speed
- Reach
- Collaborating with Industry partners.
- Speed, Efficiency & Excellence

SAFE AGILE TEAMS

- Cross Functional
- Self organizing
- Self motivated
- Collaborative culture
- Customer Centric Focused
- Focused on continuous improvement
- Commitment to quality
- Iterative Development
- Alignment with Program goals.

CUMULATIVE CAPABILITIES – PHASED DEPLOYMENTS

AF CON-IT BASELINE

- Generate Solicitation, Award, and Modification Documents in Uniform Contract Format (UCF)
- Generate PDS v2.5.1 transactions
- Basic User Management Controls
- SAM Vendor Sync
- PIEE Clause Logic Service (CLS) and Local Clause Management Support
- Defense Enterprise Accounting and Management System (DEAMS)
 - HS1 [INBOUND PR]
 - HS3/H4 [OUTBOUND AWD]
- PIEE Electronic Data Access
- FPDS

INSTALLATION AND EXPEDITIONARY CONTRACTING

Capability Development

- Document Rendering
- Enterprise User/Role Management

Portfolio Development

- VCE-BI Integration
 - Local Discovery and Query
 - Enterprise Reporting
- VCE-PCF Integration
 - Electronic Contract File
 - Contract Milestones
 - Requiring Activity Integration

Interface Development

- General Funds Enterprise Business System (GFEBS)
 - HS1 [INBOUND PR]
 - HS2 [PRE-AWARD CHECK]
 - HS3/H4 [OUTBOUND AWD]
- Generate PDS v2.6.1 transactions

CONSTRUCTION CONTRACTING

Capability Development

- Document Rendering (CSI)
- Public Works, Architectural and Engineering (A&E)

Portfolio Development

- ACO Modifications via RMS

Interface Development

- Corps of Engineers Financial Management System (CEFMS)
 - HS1 [INBOUND PR]
 - HS2 [PRE-AWARD CHECK]
 - HS3/H4 [OUTBOUND AWD]
- Resident Management System (RMS)

DEPOTS AND LOGISTICS

Capability Development

- Document Numbering

Interface Development

- Logistics Modernization Program (LMP)
 - HS1 [INBOUND PR]
 - HS2 [PRE-AWARD CHECK]
 - HS3/H4 [OUTBOUND AWD]

GRANTS AND AGREEMENTS

Capability Development

- Grants
- Cooperative Agreements
- Assistance Agreements
- Other Transactions

Portfolio Development

- Department of Defense Grant and Agreement Regulations (DODGARS) in PIEE-CLS

Interface Development

- FAADC and Grants.gov

MAJOR SYSTEM PROCUREMENT

Capability Development

- Management of ACO designations
- Foreign Military Sale (FMS)

Portfolio Development

- ACO Modifications from DCMA via MDO

Interface Development

- MOCAS
 - H4 [OUTBOUND AWD]
- CAPS-W
 - H4 [OUTBOUND AWD]

SECURE ENVIRONMENT

Capability Development

- Document Markings (SEC)
- CON-IT on SIPRnet
- Restrict System Integration
- Disconnected State

Interface Development

- GFEBS-SA
 - HS1 [INBOUND PR]
 - HS2 [PRE-AWARD CHECK]
 - HS3/H4 [OUTBOUND AWD]

Universal Capabilities (not tied to specific Army User Community)

- | | | | | |
|---|---|---|---|---|
| <ul style="list-style-type: none"> • Additional FPDS Configuration • Additional CLS Configuration • Additional VCE-BI Integration • Digital/Electronic Signature • Document Markings (CUI) | <ul style="list-style-type: none"> • Indefinite Delivery Vehicle (IDV) Management • Workload Assignment • PIEE Contract Closeout • Solicitation Posting | <ul style="list-style-type: none"> • Document Rendering • Bi-lateral Electronic Signatures • Mass/Multi Modifications • Reverse Auction • Protest & Dispute Management | <ul style="list-style-type: none"> • Advanced Line-Item Traceability • Packaging & Handling • Strategic Sourcing and Pricing • Procurement Management Reviews (PMR) | <ul style="list-style-type: none"> • Warrant Management • Concurrent Modifications • Document Numbering • PIID Numbers and Ranges • Enhanced Search Capabilities |

GENERAL FUND ENTERPRISE BUSINESS SYSTEM

PRODUCT DIRECTOR
MR. CARLTON WHITE

OVERVIEW

Delivers and supports innovative, adaptable, and **efficient financial enterprise business solutions** enabling total force readiness.

GFEBS

The **General Fund Enterprise Business System** is a Web-based enterprise resource planning system that implements the Army's financial management system. GFEBS replaces or absorbs more than 80 legacy accounting and asset management systems to standardize business processes and transactional input across the Army.

GFEBS-SA

The **General Fund Enterprise Business System - Sensitive Activities** is a fully functional GFEBS application operating on SIPRNet with additional security requirements to protect national security information. It enables the final retirement of legacy core financial systems, while integrating seamlessly with GFEBS to provide secure, web-based, real-time data to the Army's Sensitive Activities.

BENEFITS TO THE SOLDIER: FUNCTIONALITY

OV-1

- ✓ Spending Chain
- ✓ Real Property
- ✓ Plant Maintenance
- ✓ Reimbursables
- ✓ Financials
- ✓ Funds Management
- ✓ Cost Management

Acquisition | Human Resources | Logistics | **Financial Management** | Installations, Energy, Environment, Civil Works

Capabilities

GFEBs-SA Implements Additional
Functionality to Accommodate Army
Sensitive Activities Requirements

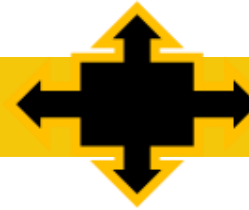

- Real Property Management
(GFEBs Only)
- General Ledger
Asset Accounting, Accounting Adjustments
- Revenue & Accounts Receivable
Billing, MIPR
- Accounts Payable
Contracts, Disbursing, GPC, Payment Certification, Interfund, Travel, Transportation, Vendor Pay
- Financial Reporting
Status of Funds, Departmental Reporting, Expenditure Reporting
- Funds Control & Budgetary Accounting
Funds Distribution, Spend Plan
- Cost Management
Civilian Payroll, Labor & Time Tracking

THE SYSTEM'S FUTURE: MODERNIZE

WHERE WE ARE

- ✓ Full transparency, accountability and traceability
- ✓ Service Provider for multiple services and program offices
- ✓ Fully deployed GFEBS capability for Sensitive Activities
- ✓ Transitioned capability support activities to ASSC; Transitioned to PEO Cloud Service Provider and PEO Managed Service Provider enterprise contracts
- ✓ GFEBS received a Qualified Opinion in its Service Organization Controls (SOC) Report (SOC-1 Report) published 15 AUG 2024
- ✓ Executed CON-IT Major Enhancement capability release for Air Force and Army end users.

WHERE WE ARE GOING

- ☐ Execute major enhancements in support of auditability for overall Army opinion to include priority efforts G-invoicing and ICAM
- ☐ Glidepath to Convergence
- ☐ FY 27 Audit Readiness

ARMYIGNITED

PRODUCT LEAD
MR. KEITH BAYLOR

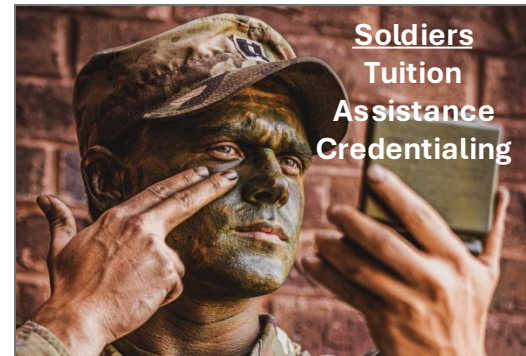

OVERVIEW

ArmyIgnitED is the Army's enterprise voluntary education academic and credentialing portal that allows over 1.4M eligible Soldiers, Scholarship Cadets, and Army Civilians to request financial assistance for classroom, online learning courses and professional development anytime and from anywhere.

ArmyIgnitED offers Tuition Assistance opportunities at over 2,500 colleges and university's offering over 300,000 college courses to choose from.

BCAT II, Defense Business System
DODI 5000.75 Framework
Capability Support Authority To Proceed
(CS-ATP) achieved DEC 2023

Tuition Assistance (TA) Program is a tailored program which funds eligible Soldiers' college courses.

Credential Assistance (CA) program provides eligible Soldiers an opportunity to earn a license or a professional and technical certification such as Program Management Professional (PMP).

Empowers Army Civilians to achieve education goals.

Army Civilian education and professional development opportunities across all civilian functional communities.

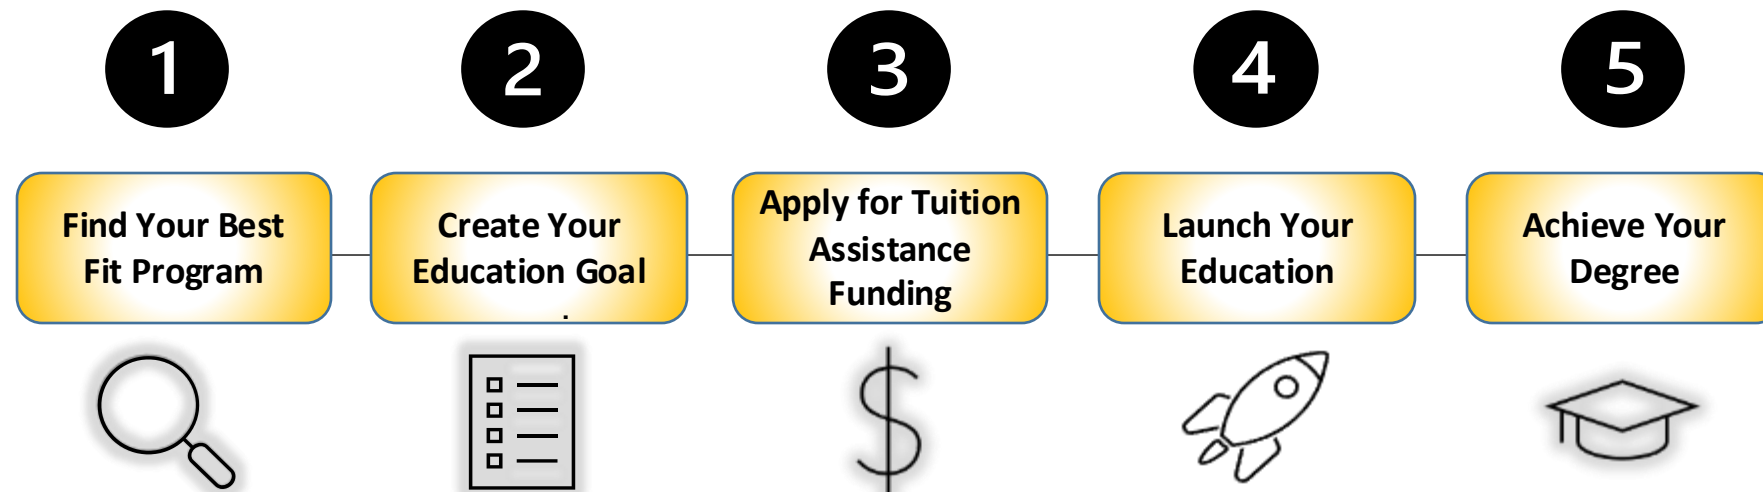

Army ROTC scholarships and stipends help the cadet focus on what's important – completing that college degree!

Special programs for Army Nursing.

AUTOMATED QUALIFICATION AND APPROVAL WORKFLOW

The step-by-step progression of a student through the education lifecycle.
Soldiers and Civilians need a CAC card to access ArmyIgnitED.

Benefits to the Soldier, Cadet, and Civilian

- ❖ Streamline and automate end-to-end business processes
- ❖ Provide single sign-on capability.
- ❖ Provide a Help Desk capability to support end users.
- ❖ Comply with statutes, Army LPRDs.
- ❖ Minimize cost of operations, maintenance, and support

PROGRAM UPDATES

- Product Roadmap is rich with capability enhancements and new features to meet changes in policies
- Backlog items are organized into Planning Intervals (PI) and Sprints based on stakeholder priorities
 - Recoupments & Refunds
 - Priority Civilian Updates
 - Priority Cadet Updates
 - Expand use of General Funds Enterprise Business System (GFEBS) with Civilian and Cadet invoices
 - Interface with Defense Civilian Personnel Data System (DCPDS)
- Programmatic changes
 - Migrating from the Air Force managed Cloud to a Cloud One instance
 - Receiving an ATO for the new environment
- Next steps
 - Enhance our user experience by refactoring Student Portal screens to work better on mobile devices
 - Expand our presence by adding ArmyIgnitED to the DoD Hypori mobile application
 - Improve internal program metrics for continuous improvement

DIBS CHALLENGES AND OPPORTUNITIES

Top Priorities

- Implement Recoupments and Refunds
- Expand the use of General Funds Enterprise Business System (GFEBS)
- New Authority to Operate (ATO)

Industry Best Practices

- Modern Cloud Based Elastic Solution
- Recognized for innovation and Agile methodologies
- Server capacity optimization

Top-3 Business Opportunities

- Enhance Mobile experience
- Enhance system training options
- Enhance dashboards and metrics

Challenges and Strategic Initiatives

- Congressional Marks
- Continue providing world class service
- Funding constraints with increasing requirements

Capabilities We Need

- Interactive Media Instruction (IMI) tools
- DevSecOps
- Tools for Section 508 Compliance
